

Phoenix 5000

NIR Dairy Analyzer

- ✓ Analyze powders, butter, cheese, and more on the same instrument
- ✓ Results in 30 seconds for fat, moisture, total solids, protein, and other parameters
- ✓ Designed for ease of use

- Results in 30 seconds or less
- Control moisture in powders
- Monitor fat and moisture in butter
- Optimize moisture, fat, protein, and solids in cheese
- Analyze whey to optimize production
- Build COAs for finished product
- Transfer existing databases from any NIR instrument
- Flexible data management

Next Generation NIR Analyzer

The Phoenix 5000 NIR Dairy Analyzer is the ideal solution for dairy processors that need highly accurate rapid results for a variety of products.

The Phoenix 5000 offers 30 second analysis of:

powders, butter, cheese and more

It can test simultaneously for moisture/solids, protein, fat and other parameters.

If you have already developed databases on other NIR platforms (FOSSTM, Unity ScientificTM), you can easily transfer them onto the Phoenix 5000 and begin generating reliable results immediately.

EXPLORE THE PHOENIX

Easy to Use Interface

- 12.3" Microsoft Surface Touchscreen
- Simple tab design
- Fast access to results
- Flexible data handling

All Phoenix instruments are manufactured at Blue Sun Scientific's headquarters in Jessup, Maryland.

The most trusted NIR technology used by the food and agriculture industries

Fully Sealed

- Rugged and robust
- Ideal for in-lab or at-line analysis

Innovative Sample Car

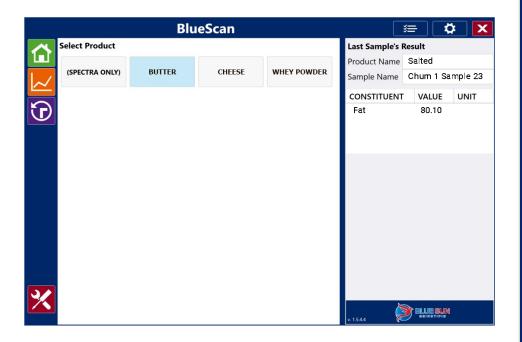

- Scans large and small cups
- Scans entire sample cup
- Integrated standards

The 10,000-hour lamp can be replaced in under 5 minutes with no special tools needed.

Introducing BlueScan

Software Designed for Ease of Use

The Phoenix 5000 is powered by BlueScan. BlueScan is designed to simplify routine analysis and is packed with features that make it ideal for monitoring quality and optimizing production.

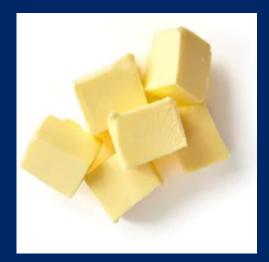

BlueScan's tab design ensures your information is always a click away. You can easily view results, historical data, spectra, generate reports and run diagnostics with the press of a button.

Keep Your Database

The Phoenix 5000 Dairy Analyzer comes ready to analyze common dairy products, including powders, butter and cheese.

Additionally, you can continue to use calibrations you have previously developed on other NIR instruments.

The Phoenix 5000 is backwards compatible with databases from many major NIR manufacturers, including FOSSTM, and Unity ScientificTM.

Monitor moisture and fat in butter

Control moisture in powders

Optimize moisture/solids, fat and protein in cheese

Specifications

Hardware		
Dimensions	14.0 in x 15.0 in x 20.75 in ; 356 mm x 381 mm x 527 mm (LxWxH)	
Weight	34 lbs ; 15.4 kg	
IP Rating	62	
Power Connection	Via external power supply; Input:100-240VAC, 50/60Hz, 65watt Output: 24VDC, 2.7A.	
Light Source	Tungsten Quartz Halogen Lamp, MTBF > 10k hours	
Measurement Mode	Reflectance or Transflectance	
Detector	High Performance InGaAs extended ranged detector	
Wavelength Selection	Scanning diffraction grating monochromator with nominal bandwidth of 10nm (FWHH). Configurable Data presented in 0.5nm, 1nm or 2nm increments	
Performance		
Wavelength Range	1100-2500 nm	
Number of Data Points	Up to 2800	
Analysis Time	10-60 seconds (24 scans / sample = 32 seconds)	
Wavelength Reproducibility	< 0.02 nm (based on Blue Sun Scientific specific diagnostic test)	
Wavelength Accuracy	< 0.3 nm for Blue Sun selected published peak positions of NIST SRM 1920a standard	
Photometric Noise	$< 15 \mu Au$ in standard range	
User Interface		
Display	12.3" Microsoft Surface Pro Touch Screen running Windows 10	
Data Export Options	LIMS, Modbus, Excel	
Installation Requirements		
Ambient Temperature	10-40°C	
Storage Temperature	-20-40°C	
Ambient Humidity	< 85% RH	
Mechanical Environment	Stationary during use	uePoint °
EMC environment	Laboratory use, Industry requirements	TECHNOLOGIES

Blue Sun Guarantee

Every Phoenix 5000 is backed by our industry leading warranty program which guarantees you receive fast, reliable support from industry experts you can trust at a fair market price. It includes **free**:

Software Upgrades

Calibration Development (1 Year)

■ Warranty on Parts (1 Year)
